

WSA|ModernRuins

Irvington-on-Hudson NY

Paterson Fall NJ

Project Architect

WSA|ModernRuins is seeking highly motivated architects with 5-10 years experience in all stages of project development from conception through construction administration. Applicants must have a deep knowledge of construction assemblies, details and real world conditions for heritage buildings and new construction technologies.

A successful candidate will have the following qualities: positive proactive attitude; honesty and integrity; passionate and dedicated; motivated by a quest for knowledge and innovative solutions; ability to work independently and as a team; solid communication skills; productive use of time; and a commitment to excellence. Proficiency in AutoCad, Revit and other graphic software is required.

Responsibilities

Surveys and evaluation of existing buildings & sites

Building, zoning and energy code analysis

Conceptual drawings, programming & renderings

Construction documents & specifications

Field and In-office construction administration

About our Firm

WSA|ModernRuins is an award-winning architectural firm dedicated to sustainable preservation. Deeply engaged in the formation and dissemination of innovations in technology, philosophy, codes and guidelines relating to the marriage of sustainability and heritage buildings. No matter the size or complexity, project goals integrate community and culture, education and training, regionalism and local economy, artisanship and authenticity.
